5.4 Entries for publications in print periodicals consist of several elements in a prescribed sequence. This list shows most of the possible components of an entry for an article in a print periodical and the order in which they are normally arranged:

1. Author’s name
2. Title of the article (in quotation marks)
3. Name of the periodical (italicized)
4. Series number or name (if relevant)
5. Volume number (for a scholarly journal)
6. Issue number (if available, for a scholarly journal)
7. Date of publication (for a scholarly journal, the year; for other periodicals, the day, Month, and year, as available)
8. Inclusive page numbers
9. Medium of publication consulted (Print)

5.6.4 To cite a work from a periodical in an online database, such as an article, a review, an editorial, or a letter to the editor, begin the entry by following the recommendations in 5.4 for citing works in print periodicals, but drop the medium of original publication (Print). A periodical article on the Web may not include page numbers. If possible, give the inclusive page numbers or, when pagination is not continuous, the first page number and a plus sign; if pagination is not available, use n. pag. Conclude the entry with the following items:

1. Title of the database (italicized)
2. Medium of publication consulted (Web)
3. Date of access (day, month, and year)

Examples:
