

Children of Men (2006)
Directed by Alfonso Cuarón

You all already have notes from re-watching the scene; you now have a bookmark that reminds you of all you have learned. **As a group, continue to analyze your scene from *Children of Men*.**

Your Job

Show/explain things your peers may not have seen, noticed, or thought about on first viewing.

To-do

With your partners, re-watch scene (try it without sound?) and think like a filmmaker...

What's there and WHY?

How is what you are seeing and hearing helping to tell the story/move the story forward?

What choices were made? Why?

Use your bookmark to help guide your observations.

... .continue to take notes on the sheet.

→ The more you can see, understand, and describe the better. *This is a challenge: there are two groups doing the same scene – the group who is able to analyze the scene with more detail and explanation will gain more points.*
