

**Homework:** Watch the scene assigned to you below... and maybe watch it again. Then, **using your film language, write down 3 or 4 observations from your scene.**

*Think lighting, mise en scene, the narrative, etc. – and be sure to include why you think choices were made, something was included, how/the reasons something was done, etc.*

→ and PLEASE try to re-watch the scene on something larger than your phone. Please.

You need to submit your answers via email before class begins tomorrow, 1/31.

- email can have your observations in the body of the email
- you can send a link to a Google Doc
- you can write down your observations, then take a picture of your notes and send via email
- or whatever works for you (need: email notes before class AND have access to them in class)

*Bonus, find an interesting (and valid) fact about the making of the movie *Children of Men*, or even better, your scene in particular.*
