

Your Questions (from Task 3):

Can the film reel include a film that is over 3 minutes if another clip is under 3 minutes?

- no, EACH film reel needs to be 3 minutes or less
- AND one of these three reels should contain a single & complete 3 min (or less) film

Do sources go at the end of the section they are used in or at the end of the entire portfolio?

- place the citations at the end of each section (so at the end of each particular film role section)

Is it okay if I have much more content in certain roles than in others?

- you probably want a lot of content for the film role that you choosing for your third role (Film Reel 3 – the full, 3min (or less) film – most likely this March Film)
- but in general – all three roles should all look pretty similar, real content/commentary and accompanying visuals.

Does every role have to be accompanied by an in-school film assignment, or will outside work also be considered?

- if it is work you have done this year, and it fits with your role, that can work.

In role's like editor you had us keep a journal of what we did everyday. And for the majority we were filming so in the portfolio do I include the extra pictures or only include one's that pertain to editing.

- you were aiming to relate your images to your role (in the least with the captions) – but you will only use images that do relate to your role in the Film Portfolio. You should have more to work with than you need – also screen captures are probably useful for all roles

Is there any specific way to format it that can be shown in a specific illustration? Is there a template that we can follow?

- in the explanation of the assignment, IB explains that they don't give word count/format specifics because the want it to be what works for you... 3 pages max for each of your roles is all they specify. But if you take a look at the examples, they are all pretty similar so using that as a guide would be your best bet.

Scores/Comments...

LAST three of ASB	Task 1 Re-Organize (3)	Notes	Task 2 Format One Entry (5)	Notes	Task 3 Re-read Assignment (as of 12:15, 3/29) (3)
191	0	I am not sure which document you have re-organized.; you sent me one with your March film, and one with all others? Including the March film? - please re-read the directions or see me for clarification		We need to talk - you have not transferred your initial comments/reflections/images to conform to the requirements for the film portfolio - the work you collected in the former projects should help you create your portfolio pages; they were not structured to be your portfolio pages.	0
625	3		1	you have not transferred your initial comments/reflections/images to conform to the requirements for the film portfolio - the work you collected in the former projects should help you create your portfolio pages; they were not structured to be your portfolio pages.	3

063	0	not done - you still have 5 roles in this document; clean it up and choose the 3 roles you will use for the portfolio	1	you have not transferred your initial comments/reflections/images to conform to the requirements for the film portfolio - the work you collected in the former projects should help you create your portfolio pages; they were not structured to be your portfolio pages. (you have very good commentary throughout - you just need to change the presentation - take out dates, etc. and make it more of a combined presentation for each role)	3
267	2	you have 3 roles - but the last page should not be there	1	you have not transferred your initial comments/reflections/images to conform to the requirements for the film portfolio - the work you collected in the former projects should help you create your portfolio pages; they were not structured to be your portfolio pages.	3
710	3	you have 3 roles - but your current film is a role you have taken on before; note that one role of the three will need to be committed to a full film and I assumed this would be your March film as it should be your most refined) - see me	1	you have not transferred your initial comments/reflections/images to conform to the requirements for the film portfolio - the work you collected in the former projects should help you create your portfolio pages; they were not structured to be your portfolio pages.	3
241	0	I am not sure which document you have re-organized.; you sent me one with your March film, and one with all others? Including the March film? - please re-read the directions or see me for clarification	1	you have not transferred your initial comments/reflections/images to conform to the requirements for the film portfolio - the work you collected in the former projects should help you create your portfolio pages; they were not structured to be your portfolio pages.	3
427	0	not done - you still have 5 roles in this document	1	you have not transferred your initial comments/reflections/images to conform to the requirements for the film portfolio - the work you collected in the former projects should help you create your portfolio pages; they were not structured to be your portfolio pages.	0
930	0	you have 4 roles in your document (and the ? At the end) you should only have 3	5	good first entry (cinematographer); do fit in some research here - a film/dir. that you admire or are inspired by or a reference to an academic article about cine., etc.	3
088	3		1	you have not transferred your initial comments/reflections/images to conform to the requirements for the film portfolio - the work you collected in the former projects should help you create your portfolio pages; they were not structured to be your portfolio pages.	3
509	0	not done - you still have 5+ roles in this document (and the original questions)	?	because I am unsure of the three roles you are using for the portfolio, I am unsure how to comment - please see me in class today.	

962	3		5	Very good start to organizing your First (Editor) Entry; you have good reflection and details. NOTE: in this editor role, you canNOT have a clip of a film. While it is good to refer to films/clips that inspire you, include only images, not the video - the film reel is just for your work.	3
528	0	It is good that you want to re-organize, but at the least in your film portfolio document, you should have your three roles listed and the films/projects you made in in the role	2	You only have one paragraph of info. You should have transferred some images and elaborated on your commentary and reflections to make a complete draft of your first entry.	3
