

What to Do?

New Story Ideas

Come up with three (3) story ideas. All need to be potential ideas that could be made into a short film (with lots of ingenuity but no budget☺).

One needs to be about making a decision (by an individual, a couple friends, a room full of people, etc...)

One needs to be a survival story (lost in a forest; surviving the first day of school/a first date/failing a test; an apocalypse, etc...).

And a third can be another one of the above or an idea you've been mulling around already.

Please write out your ideas using either of these methods:

A) Write in paragraph form, like a short story. Telling beginning, middle and end.

B) Or addressing each of these prompts (in words & phrase/s, bullet points, and/or sentence/s)

Conflict or goal:

Obstacle/s:

Solution:

And try to keep the explanation of your story ideas clear and to the point; don't get too complicated.
