

## The Independent Study

### Two Things Due Monday

1. **[Read the Independent Study and Subject Report](#)** (handout given in class Thursday).

- follow specific directions on hand-out that differentiate between testers & non-testers

2. **Prepare yourself to work next week and the following week on the Independent Study during class time.**

If you are not normally someone who is able to focus working independently in class -> psych yourself up for it, bring headphones, your own laptop if you work better on that, some comfort foods... etc.

This assignment, the Independent Study, is 25% of your IB test grade (if you are not testing, this will be an assignment equivalent to a film project). So... be ready to focus and crank out this (*somewhat oddly formatted for testers*) usefully critical analysis of film.
