

## Create a Blog

*For your January Film, you will keep a pictorial production journal via a blog. The blog will be very brief for this project (specifics in January).*

**Due by next Wednesday, December 20:**

- 1) Create a blog
- 2) Add one image (any image... one of you? your dog/cat/hamster? your favorite movie poster? etc.)
- 3) And [share the address with me here.](#)

If you are a blogger, make a new page and share the link, if you aren't... easiest for most of you would be to use Blogger (it's Google's now, just search it in your Google account or - search for Blogger then it will ask you to log in to your Google account). WordPress is another easy option out there.

If you have time, scout around and look at the features and options.

Thank You
