

## Non-Testers

→ **PART I** Production Portfolio with Images

1) **Create ONE document** with blog entries/images **following these specs:**

- a) Create three distinct production phases with the headings **Pre-Production, Production, and Post-Production**
- b) Include information regarding your role related to each phase. *(This means copying & pasting info & images you have already done, fitting them into the different phases of production.)*
- c) If you don't have commentary for a phase, you must add information related to your role for the phase. [This document may be helpful](#) (look for your role beginning on page 2)

→ **PART II** The Reflection

1) At the end of the three sections, **add a reflection** section.

- a) In a paragraph or two, reflect on the whole process and evaluate the completed project as a whole. What are you proud of? What went well, what went wrong? What would you do differently? Do again? Etc.

2) **Turn in** this complete Portfolio (four distinct sections) to Turnitin.

-> I expect that you will complete this in class today.

→ **PART III** In a Page...

1) **Turn your three-section commentary into a one-page presentation.**

2) Maintain the three production sections and for each section, include:

- a) poignant, telling information on your role (pick and choose the most telling info)
- b) color image/s
- c) and make it look good

3) End the one-pager w/ a statement of advice from your role's point of view *(instead of a reflection)*.

4) These will be displayed to show off the different, varied, and complex roles you all play.

- compliment or critique the process/your group members, but don't name names, just roles

5) Do NOT put your name on the sheet; only put the name of your movie and your role, at the top.

6) I expect that you will complete this in class too, but the **due date** is Wednesday, 4/4.

- [bring in a hard copy printed in COLOR or email](#) me the document – either is due by the start of class Wednesday
