

IB TESTERS

→ PART II Complete Your Portfolio

1) Edit your portfolio:

Tips

- a) be sure you have three distinct production sections
- b) take out unnecessary info
- c) be sure your role is at the forefront
- d) take out wording where you mention that I am asking you to do something (ie: 'the teacher made us to meet with other editors', say it more like: 'in meeting with other editors, I...' etc.)
- e) if possible, include the references you made for blog entry #6 (or other references); only do this if it works – but know that references and research look good!
- f) even if you are not used to it – be a show off☺

2) Compose your reflection:

- a) this is the last thing the assessors read, make it show off what you did; include successes, innovations, hardships, all of it!

- you may have started this for homework – re-read, edit, ask for suggestions...

- b) this should be a well-written paragraph or two

- c) [see note here](#)

The above 4 sections are required to be no less than 1000 words & no more than 1200 words.

3) Write a rational (aim for 100 words, and no more than that).

- a. your rational sets out your intentions; it does not simply introduce your project, look again at the sample Portfolios online

- you may have started this for homework – re-read, edit, ask for suggestions...

- b. this is not part of your 1000-1200 word count, though once complete, add it to the beginning of your portfolio document

- c) [see note here](#)

4) Turn in the above (as one document, with 5 distinct sections) via email **before class starts on Wednesday, 4/4.**

Reminder: this portfolio is **20% of your IB Film Grade** (the film is 30%), make it show off your effort

Grading of the Portfolio (for IB Testers):

15 points total in Projects

15 points for complete Portfolio with: 1) 5 distinct sections, 2) each production section with commentary and images, 3) correct length, 4) turned in on time, 5) with clear descriptions of your role and its importance.
