

CINEMATOGRAPHY

Class/homework – due FRIDAY:

- 1) Regarding your chosen movie and chosen scene...
- 2) Find and describe (with specifics) **five (5) elements* of cinematography**
 - **Along with your observations, you must add cited research** for this submission.** Research aspects of your chosen film's cinematography if possible – or an element of cinematography to support your observations (see [right-hand column](#) for source suggestions or yesterday's assignment).
 - complete before class starts on FRIDAY

Remember: speak specifically to cinematography and include **support** (how do you know??)

**go beyond just describing the shot type/angle – EXPLAIN why/how!*

***Research Topics:*

- *Who was the cinematographer? History of working with director?*
- *Particular cameras used? Film type? Original aspect ratio?*
- *Cinematographer comments/interview (seek this out – there are probably interviews put there!)*
- *Anything unique/special about these choices?*
